

ABOUT NETINO BY WEBHELP

Created in 2002, Netino by Webhelp enjoys a very solid reputation in the Social Media market (Moderation and Social Care) as well as Digital content (cutting, zapping, podcasts, replays and back office). Netino by Webhelp has a high profile in the media and inter-professional conferences.

Netino relies on Authôt for automatic transcription and video translation for a number of media groups.

CHALLENGES

- **Professional support:** Netino wants to have constructive interactions between teams using regular discussion. The Authôt team remains very attentive to expectations. The operational, sales and technical divisions are 100% committed to projects.
- **Saving time:** Netino needed a quick and simple transcription solution for their numerous videos. Authôt is the expert in automatic transcription. Its service saves a considerable amount of time by halving costs and delays.

WITH AUTHÔT

The **meeting** with Authôt happened through a **common customer**

"The relationship with the Authôt team is harmonious and daily."
