

ABOUT SYNOPLÉ

Synople is an audiovisual production agency with more than 15 years of experience. It is specialized in video capture of events and debates as well as live streaming (live transmission over the Internet and social networks). **Synople trusts Authôt for its videos transcription!**

Our contact: H  l  ne JAEGLE

Project Manager and Partner at SYNOPL  

CHALLENGES

- **Transcription:** Synople needs to have written files of its various events (plenary session, debates, symposiums etc.).
- **Accessibility:** Synople wants transmitted video debates be accessible to all.
- **Reactivity and reliability:** Synople has time constraint. With debates which often exceed 10h, it needs a prompt and faithful transcription.

SOLUTIONS

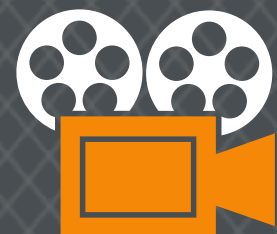

- **Transcription:** Thanks to Authôt service, Synople has access to the entire transcription in the desired format.
- **Captioning:** This service supports debates accessibility to all in particular to deaf and hard of hearing.
- **Proofreading service:** Authôt offers transcription with proofreading. Authôt's correctors allow Synople to get a prompt and faithful transcription.

"We seek through **Authôt faithful and rigorous** transcriptions with a **high reactivity**"
