ABOUT OPSOMAI

Opsomai is the French leader in online video and media libraries thanks to its Full Web 2.0 software "Opsis Media". Result of 17 years of expertise at the service of archives and audiovisual production, the Opsis Media library saves and broadcasts at 360° all your photos, videos, sounds, documents, etc. .
Opsomai is working closely with Authôt and many transcription and subtitling projects are underway!

Our contact:
David CLEMENCEAU
CEO and founder of Opsomai

CHALLENGES

Searching partners: Opsomai was looking for a partner with whom it would be very simple and quick to interface its Opsis Media software.

Meet emerging needs: Opsomai is very attentive to its customers. The transcription service was part of their expectations to make videos accessible and allow internationalization.

Obtain a quality transcription: Opsomai wanted a perfect transcription service. Authôt can meet its demand thanks to its proofreading service.
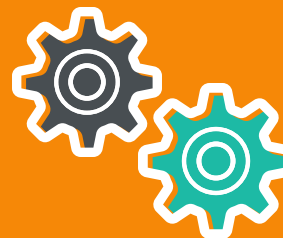

AVEC AUTHÔT

The **meeting** with Authôt happened in 2015 following a **market research** of the best **transcription solutions**

"The Authôt team is dynamic and available. Our partnership is fruitful."
